

Form 8233 Attachment
Nonresident Alien Employees
France

Note: If you are a nonresident alien employee from the country listed above, and would like to claim treaty benefits, please complete this attachment in addition to Form 8233.

I was a resident of France on the date of my arrival in the United States. I am not a U.S. citizen. I have not been lawfully accorded the privilege of residing permanently in the United States as an immigrant.

I have accepted an invitation by the U.S. government or by a university or other accredited educational or research institution in the United States to come to the United States for the purpose of teaching or engaging in research at _____ [*insert the name of the educational or research institution*], which is an accredited educational or research institution. I will receive compensation for my teaching or research activities.

The teaching or research compensation received during the entire tax year (or during the period from _____ to _____) qualifies for exemption from withholding of federal tax under the tax treaty between the United States and France. I have not previously claimed an income tax exemption under that treaty for income received as a teacher, researcher, or student before the date of my arrival in the United States.

Any research I perform will be undertaken in the public interest and not primarily for the private benefit of a specific person or persons.

I arrived in the United States on _____ [*insert the date of your last arrival in the United States before beginning the teaching or research services for which exemption is claimed*]. The treaty exemption is available only for compensation received during a period of two years beginning on that date.

I understand that the treaty with France contains a “once-in-a-lifetime” clause, thereby allowing the benefits only one time. I have not taken advantage of the treaty benefits prior to this time at the University of Notre Dame or any other institution in the United States.
